

March 17, 2011

Dear Colleagues,

We truly appreciate so much receiving many encouraging words from all over the world at the Northeastern Pacific Coast Earthquake in Japan happened on March 11, 2011. Although the earthquake and the followed tsunami damaged seriously the northeastern area of Japan, Kyoto the conference site of the UNITECR 2011 is located nearly 1000km southwest from the most damaged area and not damaged at all. As we advertising it in this home page, Kyoto has been quite safe and beautiful place as the old capital of Japan for more than one thousand years.

We are making intensive effort continuously to succeed the UNITECR 2011 in Kyoto and truly looking forward to seeing all of you there.

Sincerely yours,

Tsuneo Kayama

President, UNITECR 2011
